Rating areas by county

Standard Risk Rates are based on the *Employer's zip code*, not the employee's zip code. The rates listed in this guide are at the 1.00 Risk Adjustment Factor (RAF) for Aetna's Small Group plans. All rates are for a 12-month policy period. Each Employer Group's final RAF adjusted rates will be determined based on the relevant medical information submitted. While the information provided in this guide is believed to be accurate as of the print date, it is subject to change. Final rates will be rounded to the nearest whole dollar.
